### **Adventure Riding, Garmin: Precision Trophy:**

**Rules:** The ability to find your way around is the basis of the pleasure of riding and to give a touch of competitiveness we offer those who want it, a game aimed at navigational precision. The Precision Trophy is a challenge that rewards those who cover a stage mileage that is closest, over or under, to that of the official track provided by the organisers. The bikes must be equipped with a non-adjustable odometer. Participants must present themselves at the stage start with the

odometer set to this function. The person in charge of the start/finish line will take note of the indicated mileage and check that the odometer is running and not adjustable. Counts will be processed using the motorbike odometers. At the end of the last stage, the winner will be the one who has covered the total mileage closest to the official one. Prizes will be awarded to the first 3 absolute finishers.
